

April 28, 2016

**WESTERN CANADIAN COAL SOCIETY
NETWORKING LUNCH**

Guest Speaker: Angela Waterman

**Chair, 40th Anniversary Subcommittee of the BC Technical
Research Committee on Reclamation**

**The BC Water Sustainability Act:
What is it, and How will it affect Mine
Operators?**

Angela Waterman is currently the Chair of the 40th Anniversary Sub Committee for the British Columbia Technical Research Committee on Reclamation. She holds a Bachelor of Science Degree in Biology from the University of British Columbia. A mining industry professional with over 20 years of experience, she was most recently the Vice President of Environment and Technical Affairs for the Mining Association of British Columbia and previously, Manager of Regulatory and Environmental Affairs at Peace River Coal Inc., a wholly owned subsidiary of Anglo American Metallurgical Coal. She has diverse knowledge of the mining sector covering commercial, technical, project development as well as operational aspects, in-depth knowledge of the regulatory regime and extensive advocacy experience with governments and stakeholders.

SPONSORED BY:
